Overview

Earn more with Deal Registration

Deal Registration incentives reward you for positioning Cisco solutions to your customers. They provide you with deal protection and exclusive discounts that can only be earned by registering your deal.

Partners that utilize Deal Registration are more likely to win and have a better margin than their competitors. Registering your deals is the best way to strengthen your competitive edge with deal protection, close more deals, and secure the best possible pricing for your opportunity.

Better profitability starts here.

Deal Registration offers unique benefits

Deal Registration is the only way to earn the best possible pricing and deal protection for your opportunity. Register deals in [Cisco Commerce](#) and increase your chances of winning business against your competitors while improving your margins and profitability.

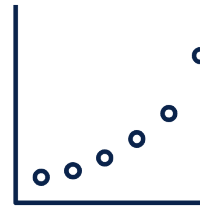

Protect your deal

Gives protected discounts offered to one partner only.

Earn the best price advantage

Guarantees the best possible pricing on your deal.

Maximize your discounts

Gives you access to incentives that only stack with Deal Registration.

Deal Registration incentives

Three paths for Deal Registration

Hunting and Teaming are earned prior to closing the sale when you position Cisco solutions on a new opportunity. Renewing is earned upon successful adoption when driving outcomes. Register your deal during pre-sales with both Hunting and Teaming and at renewal with Renewing.

Hunting and Teaming

Uncover new opportunities or partner with your Cisco account team to protect your deal and earn competitive discounts.

Earn **Hunting** when you develop and bring new business opportunities while meeting two key requirements:

- You actively engage and pursue the opportunity with the customer.
- You position Cisco as the primary and preferred solution for the opportunity.

Earn **Teaming** by partnering with your Cisco account team early in the sales cycle while meeting two key requirements:

- Co-create a [Joint Opportunity Plan](#) with your Cisco account team.
- Choose either the Sales or Lifecycle Teaming track that's best for the opportunity and complete the required pre-sales activities.

Renewing for Enterprise Agreements (EAs)

When you build relationships with your customers, you can help them get the most out of their subscriptions. Earn EA Renewing deal protection when you drive outcomes in their lifecycle.

Renewing is designed for partners who are:

- Customer Experience Specialized
- Enrolled in Lifecycle Incentives
- Authorized to sell Enterprise Agreements

And have met Lifecycle Incentives adoption criteria prior to renewal.

Earn benefits as early as one year into the initial contract term:

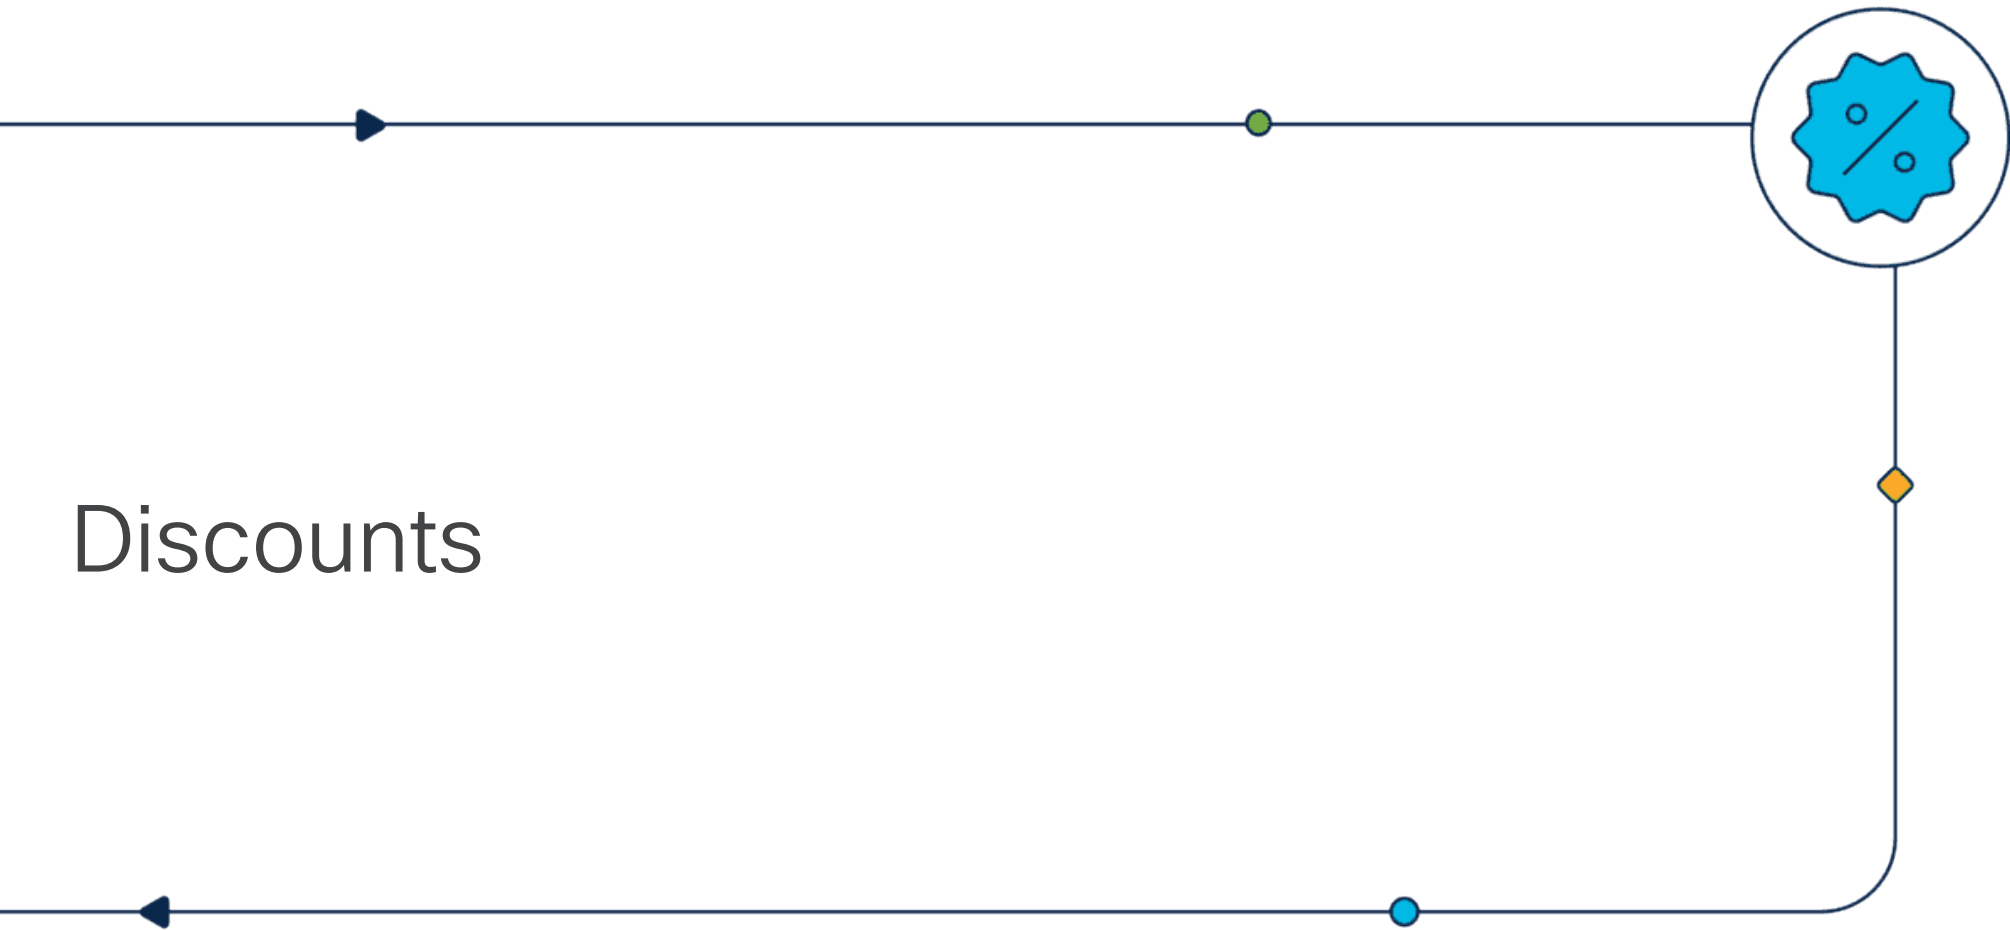

- Deal protection on EA renewals, a la carte to EA conversions, including the services portfolio you attach to the EA subscription.
- Same discount as Hunting/Teaming.
- Protection through the entire renewal term.

Deal Registration at-a-glance

	Hunting	Teaming	Renewing
Drives targeted sales motions	New partner-led Opportunity	New Cisco-led opportunity	EA Renewal*

Hunting, Teaming or Renewing

+

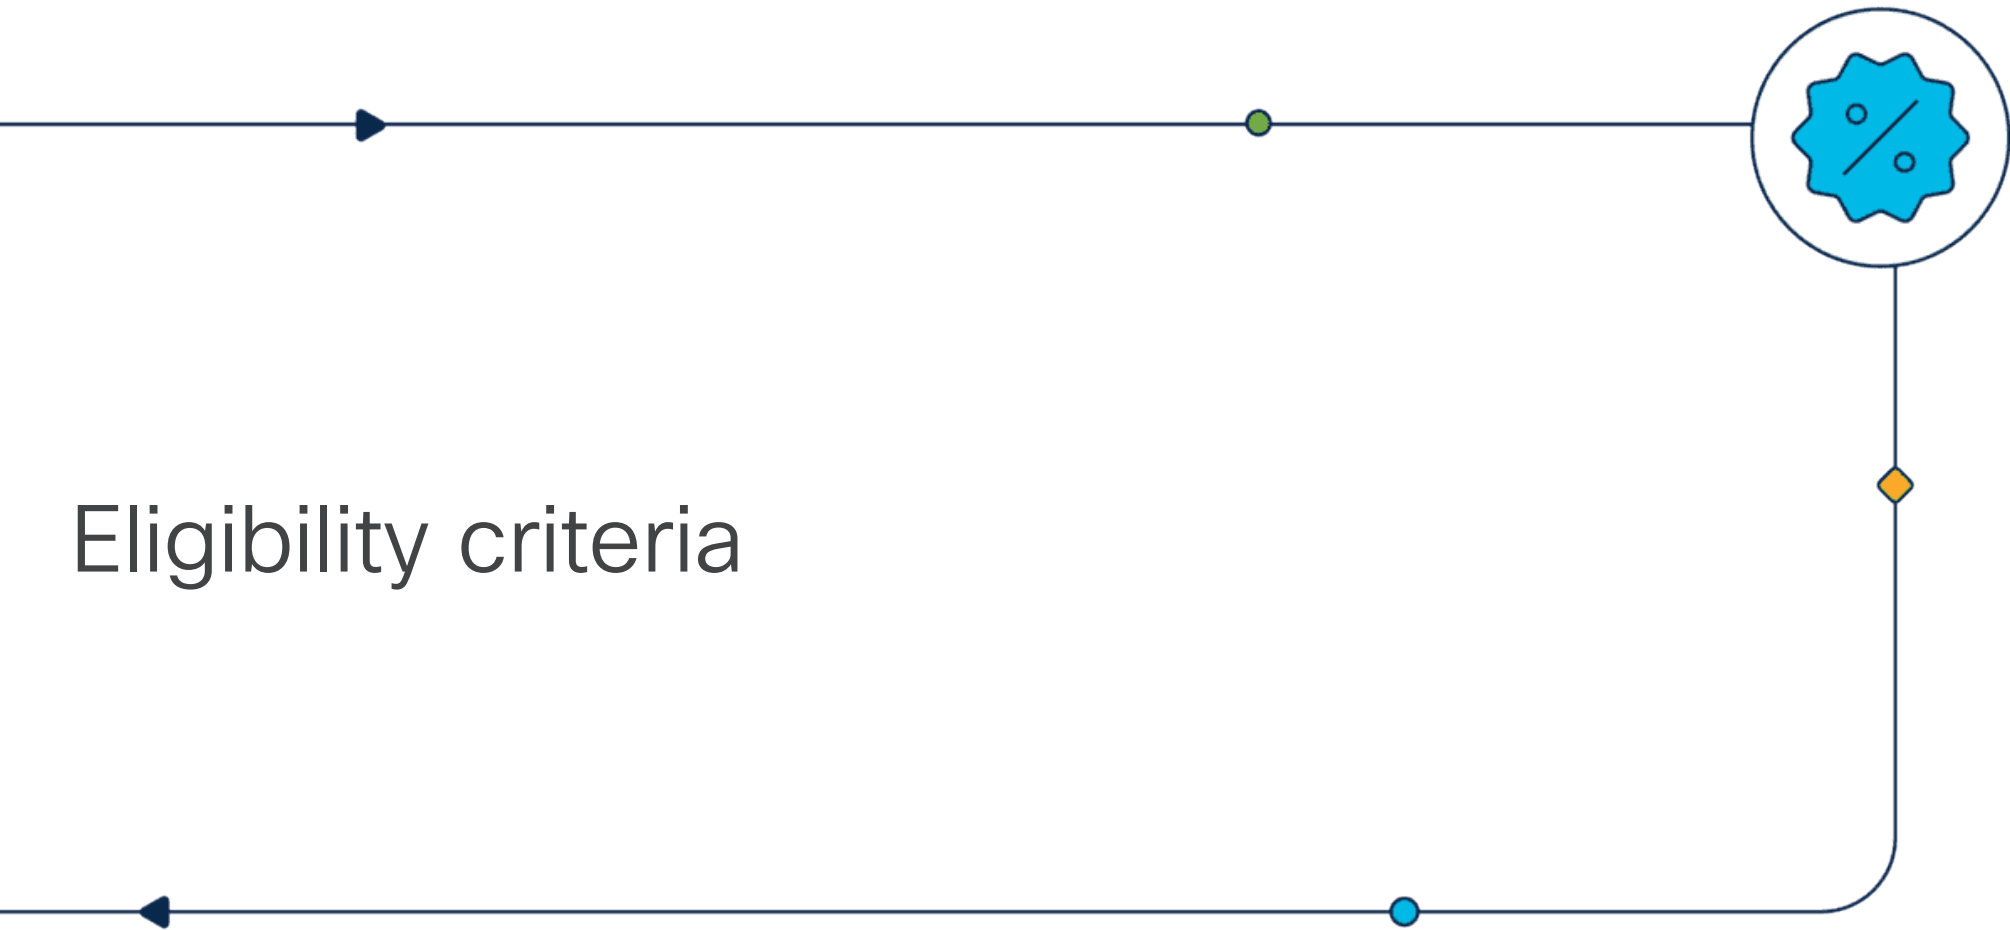

Base Discount (Provider or Resale Pricing)

Incremental discount exclusively available for Environmental Sustainability Specialized partners on eligible Takeback deals.

Fast Track and other promotions automatically stack with Hunting or Teaming for eligible deals.

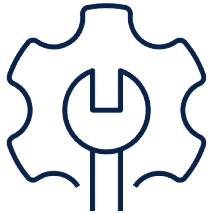

Hunting, Teaming and Renewing are only available to one partner per opportunity.

Base discounts form the foundation of the discount stack on partner led business.

Eligibility criteria

How to earn Deal Registration

What are its features?

- Deal Registration is a globally available incentive.
- Earn stackable discounts by registering your deals.
- Pricing is exclusive to the registered partner and cannot be disclosed to an end customer or other partner.
- Special discounts for specific technologies or industry verticals will automatically apply if eligible.

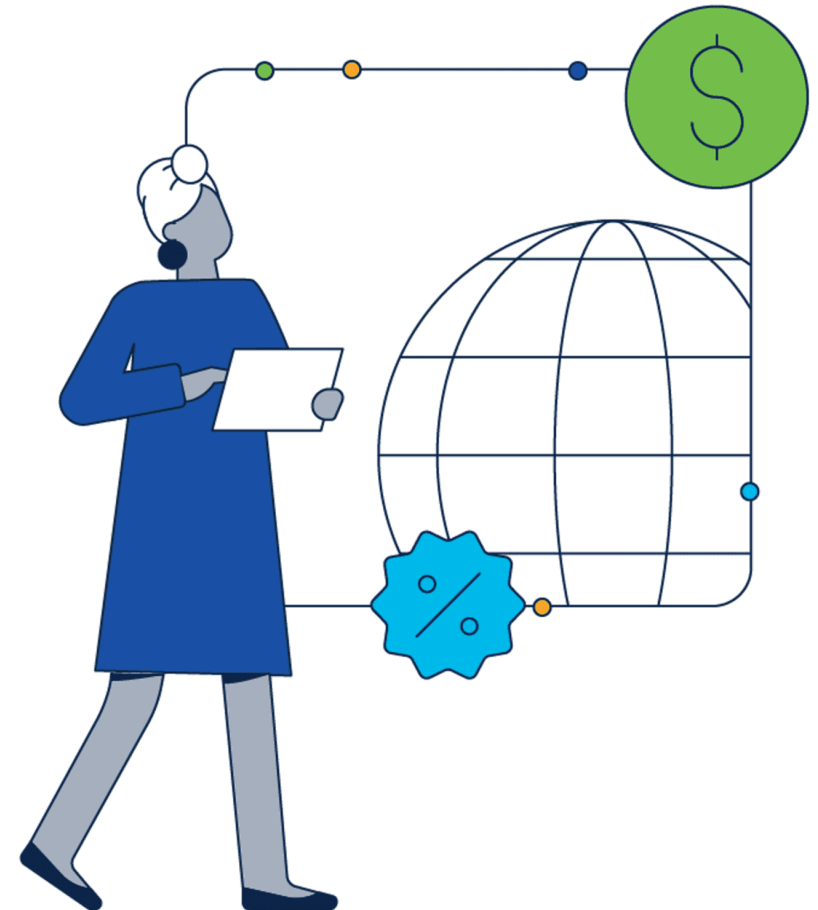

Which partners are eligible?

- Enrolled in the Cisco Partner Program
- Global Gold, Gold, Premier or Select Integrator and Provider
- Cisco Multinational

How does a deal qualify?

Requirements

- Customer headquarters are in the same available region/country as approved Deal Registration.
- The registering partner has the necessary technology authorizations to purchase and resale product, services and software and/or contractual vehicles needed to fulfill the customer order.
- Registration is qualified before any request for proposal (RFP) or quote (RFQ) has been issued.
- Hunting or Teaming minimum deal size of \$5K on the Cisco Global Price List (GPL). Note: Except for UKI with a minimum deal size of \$15K on the GPL.
- Renewing minimum deal size of \$100,000 net value on the Cisco GPL.
- The opportunity does not have non-standard pricing approved prior to the registration.

What are the Teaming pre-sales activities?

Choose any two pre-sales activities to complete in the sales track or complete one pre-sales activity in the lifecycle track:

Lifecycle track

Use this track to drive lifecycle behaviors and future renewal opportunities with your customer.

Complete and submit the Responsibility Matrix from the Digital Lifecycle Selling Experience (DLSE) [Align tool](#).

Sales track

Use this track to drive early engagement with the customer and optimize the solutions offered pre-sales activities include:

- Technology demo, testing, or proof of concept
- Pre-sales engineering support for architecture and design
- Network assessment
- Pre-sales application support plan
- SOW for Cisco Advanced Services or your own professional services
- Executive Briefing Center (EBC) or Customer Briefing Center (CBC) with customer
- Work with Cisco Sales team and public sector customer on grant identification, development, and submission for funding
- Lifecycle management proposal (APJC Only)

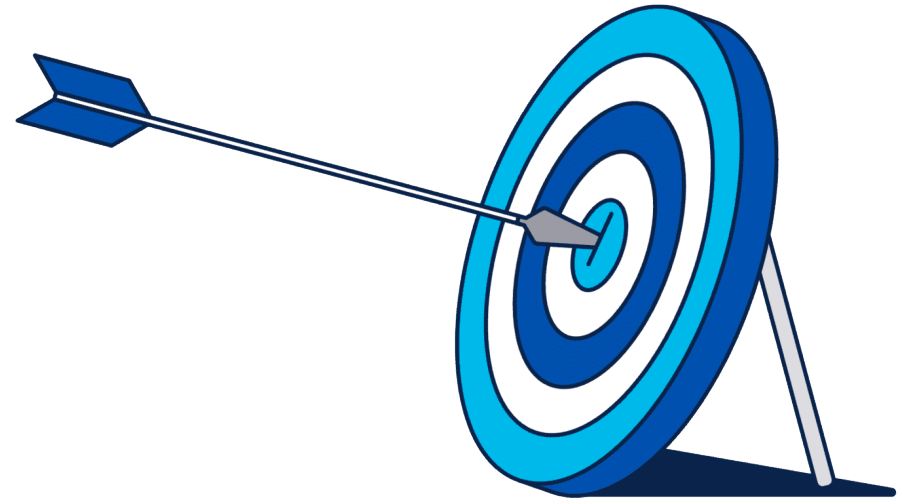

How is a deal defined?

Hunting Only

- **New opportunity*** – the deal was not previously known to Cisco. This means it was not facilitated by Cisco or another channel partner, it is not in the Cisco sales forecast, and has not previously been qualified or approved. Cisco will automatically validate whether a deal is in the Cisco sales pipeline.

Hunting, Teaming, or Renewing

- **Existing customer** – your deal can be for an existing Cisco customer. It does not need to be a net new customer to meet registration eligibility.
- **Project-based** – only one registration is allowed for the same technology and the same end customer at a time if the opportunity is active.
- **Term software** – both hardware and term-based software subscriptions are eligible. This includes deals where you are re-landing a previously purchased subscription with a new sale.

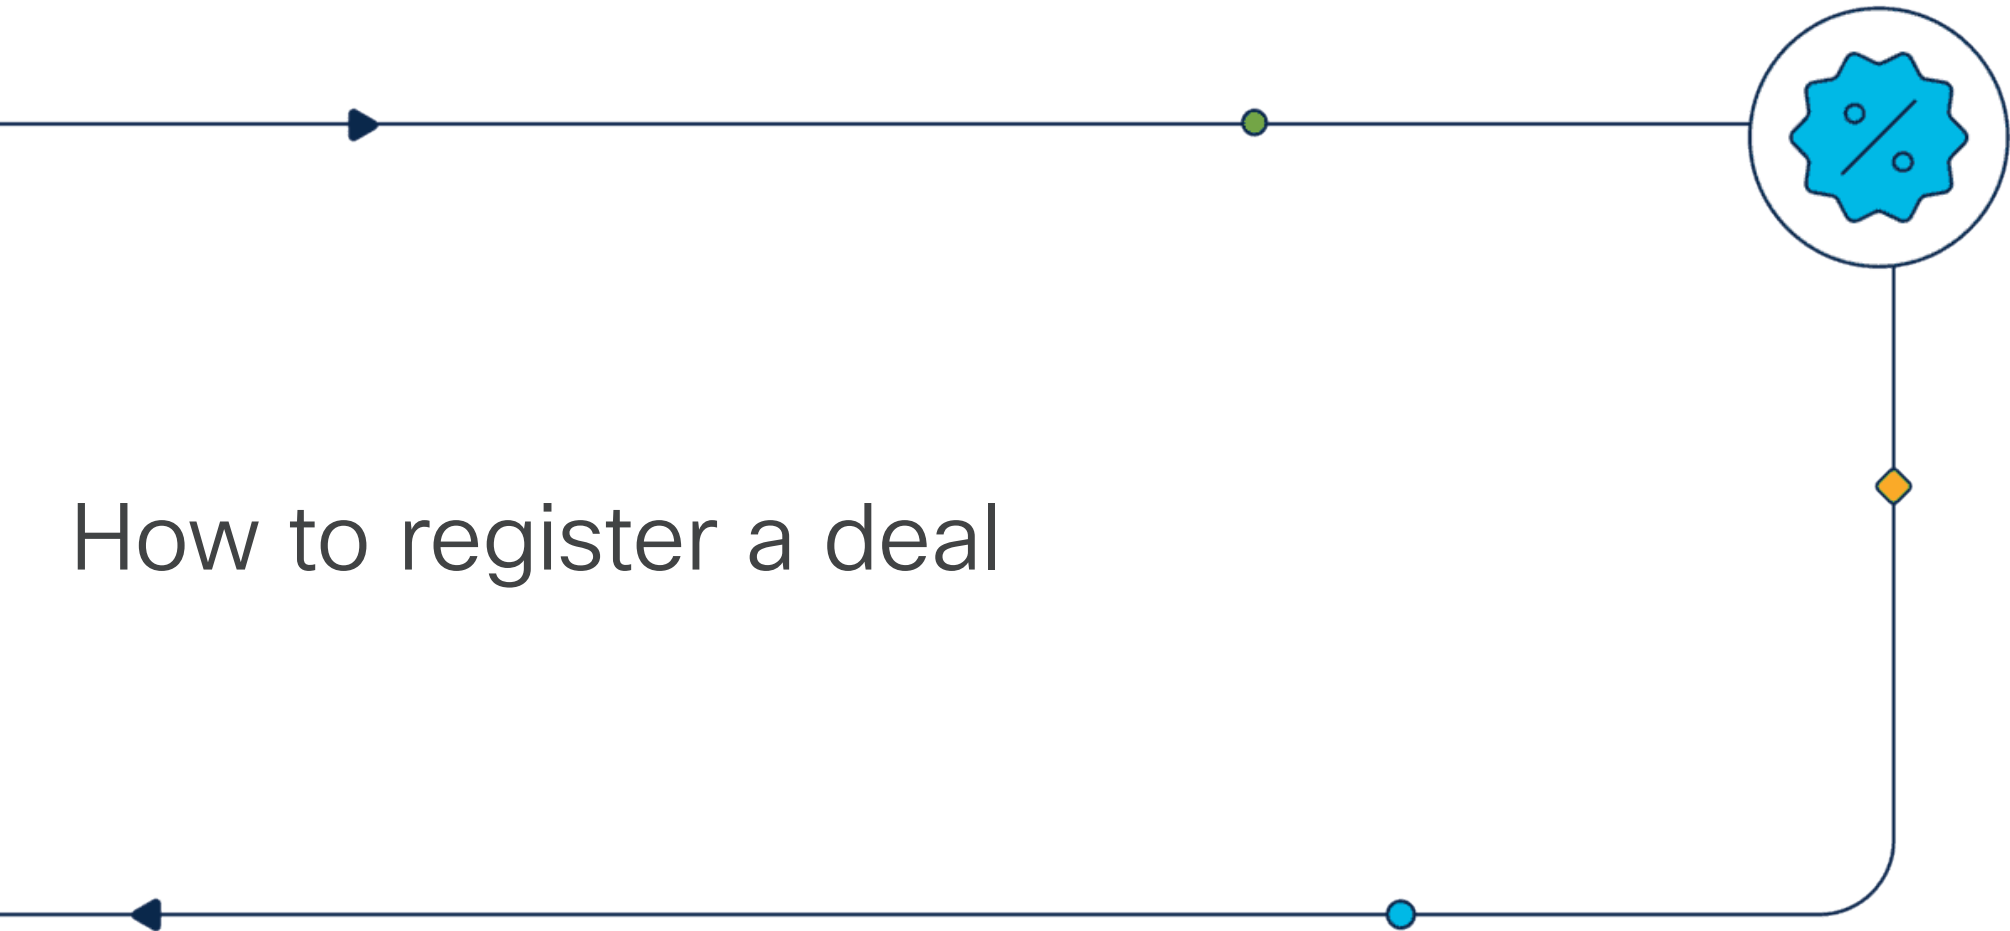

*The terms deal and opportunity are used interchangeably

What information can be shared?

- All partners have an equal opportunity to participate in Deal Registration.
- Deal Registration is a partner incentive. Eligibility cannot be influenced by an end customer.
- Deal Registration must be fully approved before pricing is given to an end customer.
- End customer pricing is solely determined by the partner.
- You may not disclose whether you have the registration or share specific discount details with end customers.
- Deal Registration is a legally binding agreement between Cisco and the approved partner.

How to register a deal

Engage with your Cisco account team

Identify opportunities

Engage early, establish relationships, and identify areas to partner on opportunities.

Establish cadence

Share information and connect, with biweekly or monthly calls to discuss ongoing opportunities, develop white space, and build territory strategy.

Engage by segment

Different segments have different customer engagements.

Ensure alignment

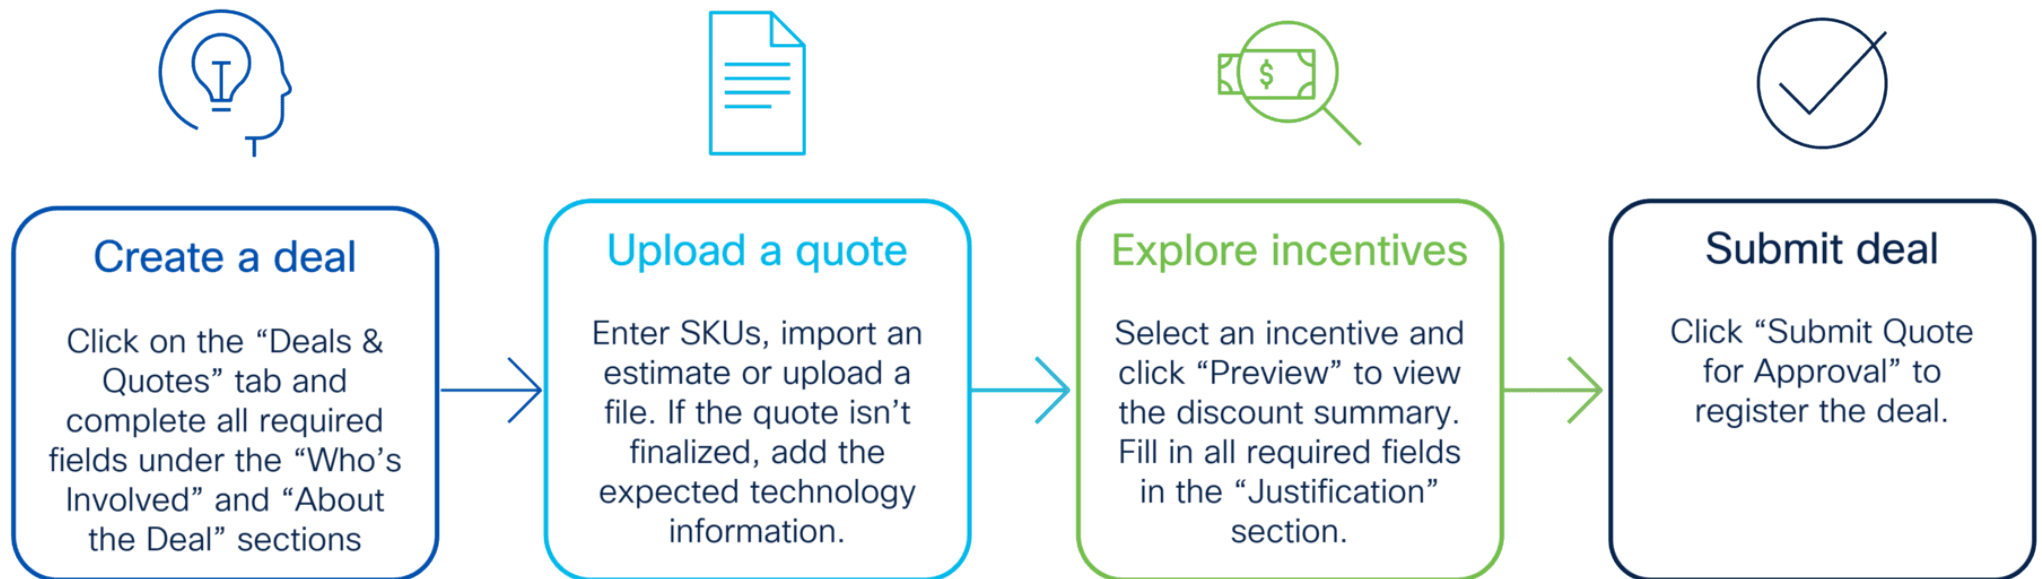

Ensure that Cisco extended team members are aligned—DO NOT provide pricing to a customer until a deal is approved.

Register your deal

By Hunting new opportunities, Teaming on existing opportunities or selling solutions. Ask for registration; if none is available, ask for pricing.
